INFO & UPDATES

- ✘ We *again had a higher percentage* of our students who took AP Tests score a 3, 4, or 5 than both the NJ and Global average
 - + Millville = **80.3%** (this is up 5 points from last year's %)
 - + NJ = 72.8%
 - + Global = 60.7%

MILLVILLE VS NJ & THE WORLD

AP[®] Five-Year School Score Summary (2015)

Print / Download Options

This report shows five years of data at the school, state and global levels. On the first page, a graph illustrates the year-over-year change in the percentage of AP students with scores of 3 or higher, next to a table that provides the overall total exams, total unique students and both the number and percentage of AP students with one or more scores of 3 or higher. On subsequent pages, the report provides subject-specific summary data by year: total exams, total exams by score and mean score.

% of Total AP Students with Scores 3+	60.2	61.5	60.9	61.3	60.7

"Success" on an AP Exam is defined as an exam score of 3 or higher, which represents the score point that research finds predictive of college success and college graduation. These findings have held consistent across the decades. One example of such a study comes from the National Center for Educational Accountability, which found that an AP Exam score, and a score of 3 or higher in particular, is a strong predictor of a student's ability to persist in college and earn a bachelor's degree.

The data in this report differs from other College Board reports, such as *The AP Report to the Nation*, which tracks exams taken by seniors throughout their high school career (cohort-based) and includes public school data only.

OUR FIRST AP SCHOLAR WITH DISTINCTION!!!

- ✘ Students who meet certain criteria based on high test scores receive various designations of **AP Scholar**
- ✘ Millville had the following in this year's graduation class:
 - + AP Scholars = 5 students
 - + AP Scholar with Honor = 4 students
