

Disability Insurance Companies

Please be advised that the Millville Board of Education does not contribute to the State Disability Insurance. If you wish to have disability insurance, please contact a company below regarding a private disability policy. The companies listed below are the only companies that we offer automatic payroll deductions for.

Once you have a policy set up with a participating company, they will submit documentation to the Payroll Department for automatic payroll deductions.

In the event you would like to discontinue an existing policy, please contact the company. Deductions will not be changed by the Payroll Department until notification comes from the company.
