

Health Clubs

The Millville Board of Education offers automatic payroll deductions for health club memberships to the local health clubs listed below.

If you are interested in automatic payroll deductions, please contact and join a participating health club and notify them that you would like your membership dues taken via automatic payroll deduction. Once you have completed the necessary paperwork with them, they will submit documentation to the Payroll Department for automatic payroll deduction.

In the event you would like to discontinue your membership, please contact the health club. Changes will not be made by the Payroll Department unless notified by the health club.
