Millville, New Jersey 08332

Date: May 28, 2013

To: All Employees Enrolled in Coastal HIF

Re: High Tech Radiology Services

Effective June 1, 2013, all Coastal HIF members receiving high tech radiology services (see below) in Cumberland County will need to receive their radiology services from independent facilities that are part of the custom network that is available through the HIF. If a member receives high tech radiology services *outside* of Cumberland County, they may receive services from any participating Aetna provider. If a member resides outside of New Jersey, they may receive services from any participating Aetna provider in that state.

All pre-authorizations ordered by your physician for Aetna for high tech radiology services completed in Cumberland County, will be made to include the following independent locations:

Center for Diagnostic Imaging (CDI)

1450 E. Chestnut Avenue
Bldg. 4, Site A
Vineland, NJ 08361
856-794-1700

Center for Diagnostic Imaging (CDI) Upper Deerfield)

1119 Hwy. 77, Carl's Corner
Bldg. 2, Suite C
Bridgeton, NJ 08302 (across from WalMart)
856-453-1555

University Imaging

1051 W. Sherman Avenue
Vineland, NJ 08360
856-691-3333

South Jersey Open MRI

1103 S. Delsea Drive
Vineland, NJ 08360
856-696-5800

(Tri State Imaging)

Pennsville Radiology

248 S. Broadway
Pennsville, NJ 08070
856-678-8118

Coming Soon!

Vineland Diagnostic Imaging (Tri State Imaging)

Sherman Avenue, Vineland, NJ 08360

This will be a full service location and is scheduled to open approximately 10/1/2013. We will make an announcement as soon as they open.

****PLEASE NOTE: NO HIGH TECH RADIOLOGY SERVICES WILL BE PREAUTHORIZED FOR *Inspira/SOUTH JERSEY HEALTHCARE* FACILITIES (with the exception of bed patients and emergency room patients).**

Please contact Allen Associates with any questions between 8:00 AM-5:00 PM from Monday-Friday at 856-692-2250.

The following services are considered “High Tech” and require precertification via Medsolutions:

- Magnetic resonance imaging (MRI)
- Magnetic resonance angiography (MRA)
- Computed tomography (CT)
- Echocardiograms
- Nuclear medicine imaging, such as positron emission tomography (PET)
- Single photon emission computer tomography (SPECT)
- Diagnostic Cardiology
- Sleep Management Studies
- Cardiac rhythm implant devices
- Radiation oncology therapy

Examples of “Low Tech”, or services not requiring pre-authorization via Medsolutions are:

- X-ray
- Ultrasound
- Fluoroscopy
- Mammography
